Religious Education in the Family

By HENRY F. COPE

General Secretary of the Religious Education Association

THE author deals with the real meaning of religious education in and through the home and its significance to society. He interprets past customs and recommends many new and definite practices for the direction of the child's religious ideals and activities.

To the sane discussion of family worship, church-going, the Bible in the home, and Sunday occupations the author adds illuminating chapters on the family table, stories and reading, week-day activities, the school, moral crises, and other vital topics.

A book especially valuable for parents' associations and classes and all individuals and organizations interested in child welfare and the promotion of a Christian type of home.

The Dramatization of Bible Stories

By ELIZABETH E. MILLER

¶ A book which presents cogent reasons for leading children to dramatize great religious stories—develops the process of creating drama from biblical stories—shows stories in all stages of development by children engaged in their dramatization—suggests simple and practical directions for staging.

¶ This book gives the methods and results of an experiment that has been carried on by the author for several years, in adapting striking biblical stories for dramatic presentation by children. The book is educationally sound in that its purpose is to *train* the children in the *process* of dramatization, rather than to produce elaborate and finished dramatic effects.

An invaluable book for the home, the day school, and the Sunday school

Handbooks of Ethics and Religion

for College Classes and Adult Study-Groups

The Spread of Christianity in the Modern World, by EDWARD CALDWELL MOORE. \$2.25, postpaid \$2.40.

A survey of the history of missions since the beginning of the modern era. Depicts the missionary movement against the background of general history.

How the Bible Grew, by FRANK G. LEWIS. \$1.50, postpaid \$1.65.

The first single work to record the growth of the Bible from its beginning up to the present time.

The Life of Paul, by BENJAMIN W. ROBINSON. \$1.75, postpaid \$1.90.

This narrative moves rapidly through the apostle's successive difficult conflicts and powerful triumphs and furnishes a reliable guide to a study of Paul's career.

The Religions of the World, by GEORGE A. BARTON. \$2.25, postpaid \$2.40.

The author gives a keen and sympathetic interpretation of all the great religions of the world, and a summary of the chief facts regarding their origin and history. Popular presentation and scholarly accuracy combined.

The Psychology of Religion, by GEORGE A. COE. \$2.25, postpaid \$2.40.

There are few books which are adapted for use as college texts and are at the same time interesting reading for those outside of scholastic circles. But this book is one of that few.

The Story of the New Testament, by EDGAR JOHNSON GOODSPEED. \$1.50, postpaid \$1.65.

A clear exposition of the development of the New Testament based upon the definite thesis that "Christianity did not spring from the New Testament but the New Testament from Christianity."

The Origin and Growth of the Hebrew Religion, by HENRY T. FOWLER. \$1.50, postpaid \$1.60.

A remarkable exposition of religious phenomena from a fresh psychological standpoint, combining both structural and functional methods of approach.

The Religion of the Psalms

By

DR. J. M. P. SMITH

Professor of Old Testament Language and Literature
The University of Chicago

The Religion of the Psalms aims to give an understanding of the purpose for which the Psalms were written and of their function in the Jewish community. Its point of view is that the religion of the Psalms cannot be understood apart from some general knowledge of the conditions amid which they were written and the needs they were intended to satisfy. Only after one has learned the original significance of the Psalter is he in a position to use it intelligently for the instruction and comfort of his own generation.

The Psalms are a record of the inner religious life of the later Jews. They show how the saints of that period met the problems of the spiritual life in their day. In so far as our needs are the same as theirs and in so far as they put their own experience on record the Psalms become for us a store of moral and spiritual wisdom. As we see the influences that operated to produce certain hopes and fears, we are enabled to determine more accurately the validity of those reactions and to control our own minds and hearts accordingly.

The faith of the Psalmists in the presence of appalling difficulties and dangers is a constant marvel. To read the record of their loyalty stimulates our own. Faith kindles faith.

Each chapter is rich in information and suggestions for the person who desires greater knowledge about the Psalms. Every minister will find here material which will open up the treasure house of the Psalms and thus increase the pleasure and profit of their use for devotional and sermonic purposes.

Evolution, the Bible, and Religion

By

FREDERIC J. GURNEY

In this pamphlet the author has set forth in a masterful way the modern point of view on the relation between religious faith and science. He treats his subject reverently and constructively, in a spirit of fairness to both.

A careful reading of this pamphlet will help one to a reasonable point of view, from which can be seen the facts of nature as they are, the books of the Bible in their historical setting, and religion as a vital concern.

Single copies, 10 cents; postpaid 12 cents; special rates on quantity orders

A SHORT HISTORY OF CHRISTIAN THEOPHAGY

By PRESERVED SMITH, PH.D.

Pages, 223 Cloth, Price \$2.00

"In proportion as the knowledge of history becomes more profound and intelligent," says the great French scholar, Gabriel Monod, "an ever larger place is given to the study of religious beliefs, doctrines, and institutions." But, continues the same authority, the study of these phenomena is as yet very backward, partly because of the intrinsic difficulty of the subject, partly because the fear of wounding others' feelings or of exciting their prejudices prevents many investigators from cultivating this field in a scientific spirit. The present work attempts to subject to rational analysis and objective consideration one of the most interesting and fundamental of Christian doctrines. The author, who writes *sine ira et studio*, as one who has no party to serve and no cause to advance save that of truth, coolly exhibits the history of the idea of the sacrificed and eaten god from its obscure dawn in primitive times to its evening twilight in the present.

The practice of eating a god in the form of first-fruits or of a divine animal originated in ancient times, and attained an extraordinary development in the Mystery Religions of the Greeks, in the cults of Attis, of Adonis, of Osiris, of Dionysus, of Demeter, and of other Saviour Gods. From these cults the idea was borrowed by Paul and, against opposition of the Jewish Christians, fastened on the church. The history of the dogma, after the first centuries of our era, has been the story of attempts to explain it. Transubstantiation and the doctrine of the sacrifice of the mass were not, as commonly by Protestants and rationalists they are said to be, the inept inventions of a barbarous age, but were the first endeavors to reason about and philosophically to elucidate beliefs formerly accepted with naïve simplicity. The hardest battles over the dogma came in the Reformation period, which accordingly bulks large in the present work. While Luther, Calvin, and other prominent Reformers believed in a real presence, but tried to give its mode new explanations, other more advanced spirits, Honius, Carlstadt, Swingli, Tyndale, and their fellows, adopted the view, now prevalent in Protestant communions, that the eucharistic bread and wine were mere symbols. After the heat of the sixteenth-century controversies, Zwinglian or rationalist views were quietly adopted by most Christians, though here and there high sacramentalism survived or was revived.

Rightly understood the present study will be appreciated as a scientific essay in the field of comparative religion, and as furnishing a rational explanation of much that is most delicate and important in the history of Christianity.

WHAT JESUS TAUGHT

By

A. WAKEFIELD SLATEN, PH.D.

*Head of the Department of Religion and Ethics in the Young Men's
Christian Association College of Chicago*

The purpose of this book is to make better understood the actual teaching of Jesus as presented in the Gospels of Mark, Matthew, and Luke. Back of that purpose is the conviction that a better understanding of this teaching is certain to react in a wholesome way upon all men's religious thinking and living. The author's aim is evidently not so much to furnish a manual of methods as to suggest a basis for class discussions and to indicate the spirit in which discussions may be most profitably carried on.

In four significant chapters the author prepares the way for an intelligent study of what Jesus taught. These four chapters, "Why People Study the Bible," "What the Bible Is," "The World Jesus Lived In," and "The Importance and Difficulty of Knowing What Jesus Taught," constitute a valuable introduction, not only to this book, but to any course of study dealing with the life and teachings of Jesus.

This volume provides a unique course of study for an adult class. It guides in the investigation of scriptural passages and stimulates discussion.

The student of the New Testament—minister, layman, or teacher—will find this a most interesting and helpful handbook.

TABLE OF CONTENTS

FOREWORD

HINTS TO LEADERS

CHAPTER
